

NAGALAND FOREST MANAGEMENT PROJECT

NEWSLETTER

OCTOBER-DECEMBER 2022

ISSUE NO. IV | VOLUME-IV

From the Desk:

The present quarter i.e., October - December witnessed various SHGs under NFMP launching value added products and occupying a stall for sale in a popular outlet in Kohima. These products were also put for sale during the Hornbill Festival in the month of December.

As part of Institutional Trainings & Exposure Visits, Forest officials at the level of ADMU Head & FMU Head weretaken to Bhubaneshwar, Orissa for 5 days Institutional Training on Management of Integrated and Participatory Forestry Projects conducted jointly by IIM Sambalpur and XIM University, Bhubaneshwar.

Wildlife awareness programmes were conducted in all JFMCs as part of "Wildlife Week" in the month of October. Wildlife Protection and Community Conservation activities received a major boost when the people of Mishilimi village in Zunheboto district came forward to surrender their guns. The villagers also vowed to ban hunting in the jurisdiction of village covering 2347 ha. of forests.

To sum up, NFMP has been making a steady progress in the implementation of the project.

**Shri. M. SENTHIL KUMAR, IFS
Project Director, HRD
Nagaland Forest Management Project**

Inauguration of Welcome Gate at Piphema Old Village:

Chief Minister of Nagaland Shri Neiphiu Rio, inaugurated Piphema Old Village Traditional gate (EPA), along with 4 other major projects (Children's Park, Farmers' Market, Primary Health Centre and Cultural Hall) on 21st October 2022 that was constructed under various projects at Piphema. The Piphema Old Village Traditional gate (EPA) was inaugurated in presence of Shri Dharmendra Prakash, IFS, Chief Project Director, NFMP and Shri Beizo Suokhrie, IFS, DMU Head Dimapur.

Addressing the gathering, the CM said that five major projects, which came into reality, have been possible because of the prevailing peace and unity among the villagers of Piphema which led to all round development of the Community. In this, Rio called upon the people of Nagaland to maintain peace and unity for all round development.

Zhaleo Rio, Advisor Sericulture, Excise and Minority Affairs, Government of Nagaland, also delivered short speech. The formal function was held at the Cultural Hall, Piphema organised by Piphema Khenu Krüta Krotho. Introductory remark was given by Y Kikheto Sema, Agriculture Production Commissioner, Nagaland. The function of the traditional gate inauguration, was led by KughahoAchumi, support staff, DMU Dimapur. Farmers' Market & Children's Park inauguration was led by Kevin Solo, SDAO. The inauguration of Primary Health Centre was led by Dr Imotemjen, CMO Dimapur. The formal programme was chaired by KeniloApon, secretary tribal affairs, Nagaland while vote of thanks was proposed by Zhato Kimho, advisor PKKK.

Advisor of Technical Education and Elections Shri Medo Yhokha, Advisor of Youth Resources and Sports Shri Er. Zale Neikha and MLA Keneizhakho Nakhro were also present on the occasion.

Hon'ble Chief Minister of Nagaland Shri. Neiphiu Rio along with Shri Dharmendra Prakash, IFS, Chief Project Director, NFMP and other dignitaries during the inauguration of Welcome Gate at Piphema Old Village, Batch-II under Piphema Beat.

Distribution of Potato seed tubers to SHGs: DMU Dimapur in convergence with Krishi Vigyan Kendra (KVK) Dimapur, has distributed Potato Seed Tubers to SHGs under NFMP in Medziphema & Piphema beat on 27th & 28th Oct 2022 respectively. The main objective is to promote and strengthen livelihood opportunities and to contribute to their Income Generating Activity.

SHG members of Piphema Old Village (Batch-II) & Hekheshe Village (Batch I) Under Piphema Beat along with the FNGO Team after distribution of Potato Seed Tubers.

The Marketing Shed (EPA) of Pherima A Village was inaugurated by Shri Beizo Suokhrie, IFS, DFO cum DMU Head Dimapur on 19th Nov 2022

Chief Project Director Shri Dharmendra Prakash IFS along with the SHG members of Piphema Old Village after the inauguration of the WHS cum Marketing Shed at Piphema Old Village (Batch-II), Dimapur on 29th Nov

Launch of Value-added Products by SHGs under NFMP: Stalls of Valued added products by SHGs under NFMP was inaugurated by Shri Rama Shankar Prasad (IFS) Dy. Project Director (JFMC, Community Development, Livelihood and IGA) NFMP JICA, at Made in Nagaland Centre store, Kohima promoted by Youth Net on 24th Nov 2022. During the event Rama Shankar Prasad launched four products of SHGs under Divisional Management Unit, Dimapur. A designated space will be provided for all the SHGs under NFMP-JICA to showcase the products for marketing at Made in Nagaland Centre, Kohima.

Shri Rama Shankar Prasad (IFS) Dy. Project Director (JFMC, Community Development, Livelihood and IGA) NFMP, Mr. Pravanjan, CB Expert, PMC, FMU Head Medziphema, Youth Net Director and Team, DMU Support Staff and FNGO Team Dimapur during the launching of SHG Product.

Institutional Training (Certificate Course) on Management of Integrated and Participatory Forestry Project

DMU/ADMU Heads and FMU Heads of NFMP along with the women SHG members of Odisha

A five days Institutional Training (Certificate Course) on Management of Integrated and Participatory Forestry Project for selected PMU officials, DMU Heads and ADMU Heads was conducted jointly by Indian Institute of Management (IIM), Sambalpur and Xavier Institute of Management (XIM) University, Bhubaneswar from 14th – 19th November, 2022 at Management Development Center (MDC) of XIM University, Bhubaneswar.

The training aimed to expose the senior officials of NFMP engaged in project implementation on the integrated and participatory forestry project management concepts, approaches and strategies to build and enhance the capacities of the staff around project management tools.

Through this institutional training, it is expected that the participants have a) become aware of different aspects of participatory forest management, b) learn from the experience of Odisha Forestry Sector Development Project Phase I and II, and c) to develop an understanding of the application of learning in the field condition while implementing NFMP.

This exposure will benefit NFMP senior leadership by broadening their understanding of changing forest management strategies in a global context and obtaining certification from a recognised international forestry institute, which will impact their performance in managing and implementing forestry projects.

A total of 23 participants from DMUs, ADMU & FMU Heads attended the training program at XIM University, Bhubaneswar.

Prof. Neeraj Kumar from XIM University, Bhubaneswar and Dr. Sumita Sindhi, Associate Professor from IIM, Sambalpur coordinated the training program. Experienced resource persons from Indian Forest Services officers, experienced professors from XIM University and IIM, Sambalpur facilitated the technical sessions in the training program.

Considering the importance of physical interaction, experience sharing, and exchange of ideas for an in-depth understanding and learning, the training was conducted in a physical mode. The industry experts and faculty members adopted participatory and interactive approach to facilitate the training program. As such, classroom training along with field visit to different OFSDP II project location in Dhenkanal forest division was carried out. Efforts were made to make the training interactive by asking questions, seeking suggestions, and clarifying queries of the participants.

Field visit as an approach of learning by seeing and interacting was followed and the participants were exposed to real field situations. During the field visit, the participants were facilitated to discuss with various stakeholders at OFSDP II project and tried to understand the overall implementation structure of the project, its institutional arrangements, key interventions and its sequencing, critical roles played by various entities engaged in the project viz. JFMC, SHG, Animators, Gram Panchayat etc. They also visited various intervention sites including soil and moisture conservation work, artificial natural regeneration, natural regeneration, entry point activities etc.

The Villagers of Piphema Old Village Batch II under Piphema Beat selling their farm produce at WHS cum Marketing Shed site. The WHS cum Marketing shed was inaugurated in the month of November 2022 and has been in use since then.

PRC (STC) Quarterly Review Meeting

2022: The Project Review Committee (Southern Territorial Circle) conducted the Quarterly Review Meeting on 17th Oct 2022 at the Conference Hall of the Forest Office Complex, Kohima. DMU Heads of the Southern Territorial Circle gave power point presentations on the status of all the works being carried out under NFMP in their respective jurisdictions.

World Bank team visits Terogvunyu village: Members of the World Bank team visited Terogvunyu village on 15th Nov 2022 and interacted with the village community. The purpose of the visit was to deliberate on various farming patterns in the village which were explained by the JFMC members to the visiting team. Shri Rajkumar M. IFS, DMU Head Kohima apprised the visiting team on the preparation of Micro plan, promotion of Income Generation Activity among SHGs and the various Forestry Intervention Models that are being implemented in the village under NFMP.

Medical camp at Terogvunyu village:

DMU Kohima organized a one-day health camp at Terogvunu village under Tseminyu on 27th Nov 2022. The main purpose of conducting the health camp was to provide basic health services and diagnosing major health issues early being faced by the elderly group of people. During the camp, Dr. Anshida K MBBS, MD Ophthalmology (AIIMS Delhi) provided services such as eye checkup, Blood Pressure, sugar level test and arthritis and provided free medicines and prescriptions. Altogether, 45 beneficiaries availed the services from the health camp.

SHG members takes part in the Hornbill Festival 2022

SHGs members from Zhadima 'A' and Terogvunyu village, participated in the Hornbill festival from 1st to 10th December 2022, by selling their products in a stall, put up under the aegis of Youth Net Women Entrepreneurship Fellowship. Products such as oranges and candy prepared from wild apple were sold. During the 10 days event, 87 visitors including national, international and local visitors bought the items. KerhunLogwa SHG (Terogvunyu), Kebwen Logwa SHG (Terogvunyu) & Dzevi Krotho SHG from Zhadima 'A' participated in the event.

Wildlife Awareness Week:

A One-day awareness program cum painting competition was held at Government Primary School, Hukphang Village by DMU Support Staffs in observation of Wildlife Awareness Week on 11th Oct 2022. DMU Support Staffs briefed the students on the importance of conserving nature and its resources. Drawing & Painting competition was organized to instil the value of conserving nature and wildlife. Students were awarded with certificates and prizes.

DMU Longleng organized a Wildlife Awareness program at Sinai School, Longleng on 12th Oct 2022 to sensitize the teachers and students on conservation of Wildlife and Nature. DMU support staffs emphasised on the conservation of migratory bird Amur Falcon which visits Longleng (Nagaland) every year. Forest

Department donated wall clocks for every classroom as a gesture of goodwill and support. A painting competition was organized on the theme *"Conserving Our Mother Earth"*. Students were awarded with certificate of participation and prizes

Students at the painting competition.

Visit by General Consulate Ms Rowan Ainsworth (Australian Consulate):

General Consulate Ms Rowan Ainsworth (Australian Consulate) visited Merangkong Village on 29th Nov, 2022. A Direct Aid Programme was organized in collaboration with Nagaland Development Outreach (NDO) along with JFMC Merangkong under the theme *"Improving Food Production through Green Technology"*. The Programme was also attended by DMU Head, FMU Head & Dignitaries from other Dept. The Australian Consulate along with DMU Head Mokokchung interacted with the women folk of Merangkong.

Installation of Camera Traps: Camera Traps were installed at JCC & PEC model areas of Sungratsu village to document the presence of wildlife and to gather concrete evidence on their existence. Four Cameras were installed on 6th Dec 2022 with the participation of JFMC members and FMU staffs. 2 at JCC and another 2 at PEC for a period of 1 month.

SHG Weekly Bazaar :

To encourage and uplift the income of Self-Help Groups, an initiative was carried out by the DMU Phek (NFMP) in collaboration with Agriculture Department, Department of Rural Development & NSRLM of Meluri Block and District Administration. Several SHGs showed enthusiasm to sell their goods and products in the market. Therefore on further deliberations all the department decided to pool money and provide handholding support from all the department to kickstart the market.

The weekly market was officially launched on 7th Oct, 2022. Self Help Groups (SHGs) from Lephory, Meluri, Kanjang, Akhegwo & Kukhegwo sells their products comprising varieties of agriculture crops and fruits from their jhum cultivation.

Bird Watching Workshop :

DMU Phek in collaboration FES (FNGO) and Bird Count India organised a bird watching workshop at Kami village under FMU Pfutsero on 23rd Nov 2022. Tomal Gogoi, Field Coordinator Bird Count India was the Guest speaker at the workshop. ADMU stressed on the importance of preserving and conserving birds in Nature and its relation to the ecological balance. Tomal Gogoi, shared the importance of bird watching and documenting birds. He explained the dynamics and process of bird watching and methods of identifying the different types of birds based on their eating habits and characteristics. The team undertook bird watching activity for 4 days and were able to document different species of birds under FMU Pfutsero.

Community Conserved Areas for Biodiversity Conservation and Voluntary Surrender of guns & hunting weapons to Mishilimi Village Council:

Nagaland is located within the Indo-Burma and Himalaya biodiversity hotspots and is rich in forest resources. The Indian Constitution protects customary rights and the majority of natural habitats are owned and managed by local communities, individuals and clans overseen by village councils, district councils and other traditional institutions. Majority of the village communities depend upon utilization of natural resources for their livelihood which has led to over exploitation of forest resources and threats to biodiversity due to the increasing needs of local people. However, through the creation of CCAs in response to forest degradation and loss of wild life, there is a hope for the protection of biodiversity conservation and ecosystem resilience as CCAs are an important mitigation and adaptation strategy for climate change.

Nagaland Forest Management Project (NFMP) was initiated during 2017-2018 and was implemented in 185 villages in 22 selected Forest Ranges and in 11 Forest Divisions of Nagaland of which Mishilimi Village falls under Pughoboto Range, Zunheboto Forest Division and covers an area over 4500 ha. With the assistance from Japan International Cooperation Agency, the project aimed at forestry interventions and biodiversity conservation, livelihood improvement and community development, Institutional activities and support activities in targeted villages in the state. The model adopted aimed at strengthening the resilience of the local communities and their forests by adopting conservation practices and providing supplementary livelihoods. Activities included compiling information on Indigenous Ecological Knowledge (IEK), motivation and sensitization on landscape conservation and capacity building of the community members in biodiversity identification, documentation and monitoring as well as promoting ecotourism as a livelihood option. Around 76 species of flora and 37 species of fauna have been documented and are being protected in 670 hectares as CCAs and banning hunting. The Joint Forest Management Committee were satisfied with the documentation of their indigenous knowledge in the micro plan.

To ensure conservation of large contiguous forest areas, an approach for banning of guns in Mishilimi Village was initiated by Mr. Kentsin Kent, Pughoboto Supervisor, FNGO, Youthnet. It was decided to mobilize support to link the community-conserved areas and develop community-based ecotourism initiatives and formalize and mainstream a network of CCAs along with the District Forest Department. Banning of guns came into implementation by engaging with the community, conservation education, and creating awareness of threats and integrated approaches at the community and stakeholder level. This was achieved through participatory planning, knowledge sharing, and capacity building. The approach of community conservation yielded positive result with the people of Mishilimi Village voluntarily surrendering their guns to the Village Council on 31st October, 2022 in the presence of Dr. Prabhat Kumar, IFS, DFO Zunheboto, Smt. Lhinghoikim Touthang, IFS, FMU head Atoizu and FNGOs YouthNet, Zunheboto. Apart from these CCAs, they have also banned hunting across the entire jurisdiction of their village, covering 2347 hectares of forests.

Inauguration of WHS at Yikhum Village (capacity: 40,000 Ltrs) under DMU Wokha

Signing of SHGs loan agreement was successfully done with Yanchanchi, Mhanka & Myanta SHGs of New Wokha Village.

Release of SHG Revolving Fund under Peren Range: On 16th Dec 2022 FMU Head Peren released the Revolving Fund after signing of loan agreement and cheques were handed over to all the six SHGs of Peletkie and Peren JFMCs in the presence of respective JFMCs under Peren Range.

Sales day of SHGs :

A two - day sales event was organized by DMU Peren along with C-CERP (FNGO) under the theme **“Green Peren, Green Growers Meet”** on 24th & 25th Nov, 2022, to provide a platform and promote the income generation activities of various SHGs of all the NFMP villages under DMU Peren.

The program was organized in collaboration with Land Resource Department, Nagaland Tool – Room & Training Centre and 25th Assam Rifles. 23 SHGs from nine villages of DMU Peren showcased and sold locally grown agricultural products in Jalukie town.

Dr. Naiem Mustafa Mansury, IPS SP, Peren district & Shri Vineet Kumar, IAS Deputy Commissioner inaugurated the program on the 1st and 2nd day respectively.

Officials inspecting the stalls setup by SHGs in Jalukie, November 27, 2022.

Vineet Kumar inspecting the stalls put up by self help groups during the "Green Peren, Green Grower Meet" in Jalukie town on November 24.

Sales Day :

Sales day for SHGs of Anatongre Village (Batch-I) was organized by DMU Kiphire & Evergreen Welfare Society (FNGO) at Kiphire town daily market on 10th Dec 2022. This activity was initiated to enhance & promote the SHG's Income Generating Activities. The program was assisted by DMU Head & Support Staffs. Variety of food item & vegetables were made available for sale.

Training for SHGs: DMU Kiphire conducted Training for SHGs of both Batch-I & II villages on the topic, 'SHG Strengthening and Management Module II' at Hopongkyu Memorial Hall, Kiphire on 6th & 7th Dec 2022. The purpose of the training is to capacitate and orient the SHGs on management and maintenance of Books and Records.

Convergence program with different departments: In order to manage and advance socially focused activities, convergence with key departments is becoming more and more crucial. Collaboration with various line departments is required to support the promotion of livelihoods and reduce the risk of excessive reliance on forest resources. As a result, through Nagaland Forest Management Project, various convergence activities have been initiated under various DMUs

Convergence program with Land Resources Department, Kiphire: On 1st October 2022, DMU Kiphire in collaboration with Land Resource Dept. Kiphire conducted a one-day training programme on "Permaculture" with women participants from all the churches in Kiphire. Seasonal crop seeds like carrots, radish, spinach, green peas, cabbage, bitter gourd, lettuce, cauliflower, okra and onion were distributed at the end of the program.

Pradhan Mantri Krishi Yojana (PMKSY): As part of Pradhan Mantri Krishi Yojana (PMKSY), one local barber from Seyochung (Batch-II) and Old Risethsi (Batch-II) were selected as the beneficiaries under the scheme and they were provided with grooming equipment.

Convergence with Department of Horticulture, Kiphire :

On 10th October 2022, a One-day training programme was organized by Horticulture Department where NFMP Self Help Groups (SHGs) of Anatongre Village (Batch-I) participated in the programme. Demonstration was held on the cultivation and management of oyster mushrooms followed by the distribution of 100 packets of mushroom spawns and poly packets to the participants.

Convergence with Medical Department, Kiphire: On 26th November 2022, a Multi-Specialty Health Camp as part of Convergence programme was organised by Medical Department in collaboration with

Nagaland Forest Management Project at Anatongre Village (Batch-I).

The event included general medical screenings, eye exams, dental, gynaecology, paediatrics, and other services. Several tests were also performed, including diabetic/sugar level, malaria, typhoid, HIV, Covid-19 and so on. All patients were given free medication. Around 200 people were screened and treated as a result of this. In addition, an enrolment drive for CMHIS and Ayushman Bharat was carried out. The nearby villages were also invited. Over 30 members of the medical department were involved in this programme.

The DMU Head Kiphire, Shri. Chisayi IFS, acknowledged the Medical Department for the service rendered to the people. He stated that, Nagaland Forest Management Project has placed a strong emphasis on inclusive sustainable community development through the convergence of initiatives or programmes from other departments. Therefore, he urged the people to avail and make good use of the opportunities provided through this platform.

The Chief Medical Officer Kiphire, Dr. R. Chubala, Kiphire urged the people to avail the facilities while also educating the villagers on various available Health Schemes like CM Health Insurance Scheme and Ayushman Bharat. She also requested the villagers to practice safe health seeking behaviour such as regular health check-ups and timely medication on all ailments.

Convergence training program: One day Convergence training program for SHG's Batch-II Revolving Fund & IGA on Rabi Crops was organized by DMU Kiphire & Evergreen welfare society (FNGO) in collaboration with KVK, Kiphire on 16th Oct 2022 at Yangzitong village.

Case Study on Convergence Activities (Merangkong JFMC Batch-II Village under FMU Changtongya Beat):

The Nagaland Forest Management Project (NFMP) was implemented at Merangkong Village in the year 2020. One of its main objectives is Forestry Intervention and Biodiversity through Community

Convergence training program organised on 16th Oct 2022 at Yangzitong village.

participation. The Project also focused on Livelihood Improvement and Institutional Strengthening of the villagers. Under the Project, a Joint Forest Management Committee (JFMC) was set up subsequently. The newly formed JFMC Merangkong established a Nursery with the allotted fund along with the free labour of the committee members in order to supply to the Forestry Intervention model areas in the village.

The nursery is strategically located near the national highway, having proper exposure to sunlight and an immense scope for expansion. During the month of July 2020, the JFMC Merangkong started the construction of the Nursery and as a result they could raise sufficient number of saplings. *Artocarpusheterophylus* (Polong) 1000, *Spondiasaxillaris* (Ayt) 22,000, *Duabanga grandiflora* (Kokhon) 20,000, *Chukrasiatubularis* (Ait) 10,000, *Ailanthus altissima* (Langpangshitsu) 18,000, *Parkiaroxburgia* (Yongchak) 10,000, *Phobespecies* 10,000 etc., are the main sapling in the nursery. The nursery is maintained by the JFMC members successfully. The saplings in the nursery are then distributed to the villagers so as to plant them on the project model areas. The nursery of JFMC Merangkong has raised >90,000 saplings so far with a surplus of >15,000 saplings. In January 2022, the Highway Construction Company – Keystone Infra Pvt Ltd. requested the FMU Changtongya under DMU Mokochung Forest Division for saplings to be planted on the roadside. A total of 2000 (two thousand) saplings were given to the said construction company from the Nursery of JFMC Merangkong @20/sapling. Thus, the surplus saplings were planted on the whole stretch of Merangkong-Tamlu-Mon road 0+000 to 20+000 km.

Activities carried out in Convergence with different Departments :

The NDO works as a FNGO (Field Non-Government Organisation) for the Nagaland Forest Management Project (NFMP) under Divisional Management Unit (DMU), Forest Department Mokochung. The FNGO in convergence with the DMU Mokochung has initiated the project 'Improving Food Production through Green Technology' has been implemented in convergence with the Divisional Management unit, Forest Department, Mokochung and the NDO, assisted by the Australia Consulate under direct Aid Programme which aims at improving the food production through green technology.

Some of the programme activities out in the last one year are given in brief:

1. Successfully completed the construction of Permanent Germplasm depot cum nursery site (80 by 30 sq. ft area) in the village. The structure is serving as a Germ Plasm collection site of wild edible medicinal fruits and vegetables available in their locality and also serve as the demonstration site for training of women Self Help

Group (SHG) on different farming practices.

2. Distributed 350 numbers of broiler chicks to 8 SHGs where each SHG group received 50 numbers of broiler chicks each. This activity was undertaken as part of the NGO's initiative of livelihood improvement in the village. A total of 65 household benefited through this initiative.

3. Distributed 100 kg of HQPM hybrid maize variety of 85 households. This initiative has supported and created abundant food source and also feeds for piggery and poultry activity in the village.

4. To achieve convergence of investment in irrigation at the field level, expand cultivable area under assured irrigation, improve on-farm use water efficiency to reduce wastage of water, enhance adoption of precision-irrigation and other water saving technologies, proposed for 8 units of irrigation facilities (approximately 8 Ha) under Pradhan Mantri Krishi Sinchai Yojana (PMKSY) scheme 2022-2023 at the project village have been put up to Horticulture Department, Government of Nagaland. For which, the village has received water syntax tank, piping and motor for 4 hectares under PMKSY scheme. This will ensure irrigation of farms and field and also promote conservation of water in the locality.

5. In order to develop avenues for the farmers group/youth group/SHG to grow and cultivate vegetables, proposal for 5 units of Poly house have also been up to horticulture Department, Government of Nagaland for the year 2022-2023.

6. The communities were also able to raised thousands of saplings for plantation. Seeds of many wild edible fruits were collected from the forest and saplings were raised in the nursery for plantation. This initiative created awareness among the community for conservation of indigenous food system.

7. Capacities of Self-Help Group (SHG) members were built in various areas like record keeping, group management and leadership dynamics.

Strengthening program at such capacity and level is essential for group sustainability and progress.

8. About 100 households in the village were directly benefited through the distribution of high yielding winter vegetable seeds.
